**CLASS MANAGEMENT ACTIVITIES (Attendance, tardies, testing, etc.):**  
Academic Discipline and Honesty:

The basis for student grading will always be the result of the student's achievement. The College expects each student to earn his/her own success; if academic dishonesty occurs, disciplinary action will be taken. Academic dishonesty includes, but is not limited to cheating, plagiarism, collusion, and falsification of information.

Cheating includes copying another's work, using unauthorized materials, collaborating during a test or project, obtaining or distributing test contents illegally, substitution for or of another person in a test. Plagiarism includes incorporating work from another source, print or electronic, without appropriate recognition of the work cited. Collusion includes unauthorized collaboration in preparation of work for credit. Falsification of information includes forgery, alteration or misuse of documents.

The first measure of discipline is the assignment of "0" or "F" for the affected test, paper or project, with explanation provided to the student. Faculty submits a written report of the offense to the Vice President for Student Services. Repeat offenses of academic dishonesty will result in additional disciplinary actions.

NETC students are expected to follow standards regarding acknowledgement of the use of other's words, ideas, opinions or theories. The student is responsible for following each instructor's guidelines for citations and for selection of acceptable sources (e.g., certain Internet sources may not be acceptable). Students should contact their instructors for acceptable methods for each assignment. The following are general guidelines: Direct quotations, regardless of length, must be appropriately footnoted or attributed. Paraphrasing is acceptable, but must be appropriately footnoted or cited for source. General work must be cited if student assignment has been influenced by other's words or ideas. Collaboration is permitted only if allowed by the instructor and ideas/work must be cited.

#### Voluntary Withdrawal from Course:

A student wishing to withdraw from the College or a course should first consult the faculty advisor to review the situation and/or to inform the advisor. The student should complete a Drop/Add form which must be signed by the advisor and return this form to Student Services.

Following this procedure will protect the student's privileges of re-admission, the assignment of representative grades, and the transfer of credits. Any student who discontinues his/her work without formal withdrawal does so at the risk of having registration privileges withdrawn. It is also the student's responsibility to follow this procedure in order to be eligible for designated refunds and financial aid. (Note: Pell grants require 60% of semester).

#### Inclement Weather Policy/Connectivity Policy:

In the event of cancellation of classes at NETC, this course will not be affected, as it is available online. Since this course is conducted "virtually," NETC may experience server problems, a loss of power, or a loss of Internet service. In the event of situations that may prevent all students in this class from accessing the material online, deadlines will be adjusted. If a student has problems with their own computer or Internet Service Provider, the student must contact the instructor as soon as possible regarding the difficulty. It is the student's responsibility to access the online course and complete all assignments in a timely manner. If you experience extended delays (more than two days), you should consider accessing the course from another computer. The instructor reserves the right to address each instance of student line/computer failure on an individual basis.

1. understand the components of management's decision-making.
2. understand the ways accounting is used by management in planning and control.

3. understand the phases of capital budgeting.
4. understand product costing.

**LESSONS:**

The lessons are required and within each lesson is a true/false quiz that is also required. These lessons are in substitution of the weekly discussions. **This is also how I take attendance in online programs, since there is NO face to face contact required.**

The lessons are to be used in conjunction with reading the chapters. I would advise the student to read the chapter before attempting to read the lesson and take the quiz.

The lessons will be available starting the Friday before the week starts. For example, the lesson for Week 2 will be available at 5pm EST on Friday, August 21. The lesson will automatically close at 11:55pm the Sunday of the week. For example, the lesson for Chapter 1 is automatically closed 11:55pm Sunday, August 30.

**INSTRUCTIONAL METHODS TO APPRAISE OBJECTIVES/LEARNING OUTCOMES:**

**Weekly Assignments:**

The weekly assignments will consist of problems selected by the professor from the end of the chapters from the Exercises and/or Problems and **WILL BE GRADED.**

The Homework Assignments will be available starting the Friday before the week starts. The Homework Assignments are then due in the drop box by 11:55pm the Sunday of the week.

The assignments need to be saved and uploaded in either MS 2003 (.doc) or MS 2007 (.docx) formats. If you do not have access to either of these formats please e-mail me and I can explain another way to save the file.

Once the week closes, the professor will upload the solutions for the selected questions. If there are any questions, please e-mail the professor.

**Tests:**

This class consists of 4 tests. Even though the exams are not cumulative, some of the material will build on previous material. Each test will consist of 25 multiple-choice questions and each question will be worth 4 points.

The tests are **limited to one entry** and will have **5-hour time frame** for each test. The tests are not designed to take the entire 5 hours, but please make sure you will have a 5-hour window of uninterrupted time to work on the tests as you will be unable to reenter the test.

The tests will be opened for you to take the Friday before the start of the official week and will be closed at 11:55pm the Sunday of the week.

**The one exception to this is the last test in Week 16.** Due to grades needing to be turned in, test #4 will open at 5pm EST Friday, December 3 and will close 11:55pm EST Friday, December 10.
