

Northeastern Technical College

Federal Work-Study Application

Award Year: 2006-2007

The Federal Work-Study Program provides jobs for undergraduate and graduate students demonstrating financial need. Work-study jobs at NETC allows a student to work on campus part-time. Eligible students may work an average of 10 to 20 hours per week. Based on funding, we are able to employ approximately 24 students. Work-study students must maintain a 2.0 GPA each semester in order to continue working.

The Financial Aid Office's staff does not select Work-study students for other areas of employment. The supervisor, of a set position, will review applications and may select two or three people to interview. After interviewing each applicant selected, the supervisor will select a replacement and the Office of Student Financial Assistance will do the paperwork so that the student can begin work. All work-study students are paid minimum wage.

Date: _____

Name: _____

Address: _____

Telephone Number: _____

Skills:

Can you type? If so, how many words per minute? _____

What computer software program(s) do you know how to use? _____
