

NOTICE TO APPLICANTS:

Most clinical facilities now require several screenings prior to granting approval for student eligibility for participation in clinical activities. One is the criminal records check, provided by SLED for S.C. residents (FBI check for non-S.C. residents). Other screenings, such as drug testing, OIG exclusions for fraud, etc., may be required. Clinical facilities may refuse participation if screening reveals issues including, but not limited to, conviction/no contest for certain crimes of abuse neglect, assault, mistreatment or misappropriation, substance abuse or fraud. All screenings are required prior to program enrollment for those admitted to the program and are conducted by the College at student expense.

South Carolina Department of Labor Licensing and Regulation (LLR) Board of Nursing may not accept applicants who have prior conviction for a crime (excluding minor traffic violations) and/or have had disciplinary action against his/her license for the National Council for Licensure Examination (NCLEX-PN). This matter must be cleared with the State Board of Nursing (803-896-4550 or www.llr.state.sc.us). NETC has no role or authority in this matter. Misrepresentation of information will make an applicant ineligible for admission or continuation in the Practical Nursing program.
