

- 1 One of the most important pieces of processing software on the motherboard is the microprocessor.
  - A True
  - B False
- 2 computer programs
  - A hardware
  - B software
  - C peripheral devices
  - D ram
- 3 Tape storage is much too slow to be used for day-to-day computer tasks; therefore, tapes are used to make backup copies of data stored on hard disks.
  - A True
  - B False
- 4 memory that is volatile (temporary memory)
  - A ROM
  - B RAM
  - C Gigabyte
  - D Megabyte
- 5 Microsoft Windows XP and Microsoft Windows Vista are two \_\_\_\_\_.
  - A operating systems
  - B programming languages
  - C application software packages
  - D device drivers
- 6 Printers are \_\_\_\_\_.
  - A output devices
  - B computer peripherals
  - C capable of connecting to a USB port if they have a USB connector
  - D all of the above
- 7 Storage measurement equal to approximately one million characters
  - A byte
  - B kilobyte
  - C gigabyte
  - D megabyte

- 8 some examples of media that has \_\_\_\_\_ access is flash drive and CD-ROM
- A direct or random
  - B sequential
  - C binary
  - D LCD
- 9 the result of the computer processing your input is referred to as \_\_\_\_\_
- A output
  - B data
  - C multitasking
  - D tracking
- 10 the physical components (equipment) of a computer are referred to as \_\_\_\_\_
- A software
  - B hardware
  - C configurations
  - D specifications
- 11 Application software enables you to perform a specific task.
- A True
  - B False
- 12 The Internet is the largest \_\_\_\_\_ in the world, connecting millions of people.
- A gateway
  - B firewall
  - C network
  - D computer
- 13 ROM is often referred to as \_\_\_\_\_ memory.
- A permanent
  - B semipermanent
  - C virtual
  - D volatile
- 14 which of the following is a pointing device
- A mouse
  - B keyboard
  - C scroll wheel
  - D function key

- 15 \_\_\_\_\_ printers transfer ink to the paper by striking a ribbon with pins.
- A Laser
  - B Toner
  - C Dot matrix
  - D Inkjet
- 16 Additional components called \_\_\_\_\_ are used to accomplish the input and output functions.
- A cards
  - B ergonomic devices
  - C peripheral devices
  - D display adaptors
- 17 touchpads and pointing sticks are typically found on \_\_\_\_\_.
- A mainframe computers
  - B desktop computers
  - C notebook (laptop) computers
  - D CRT monitors
- 18 what kind of software would you most likely use to write a paper?
- A word processing
  - B electronic publishing
  - C spreadsheet
  - D database
- 19 \_\_\_\_\_ printers use toner to transfer an image onto paper.
- A inkjet
  - B dot matrix
  - C laser
  - D color inkjet
- 20 which of the following is the largest unit of measurement?
- A terabyte
  - B gigabyte
  - C megabyte
  - D kilobyte
- 21 which kind of CD can you record data on?
- A CD-ROM
  - B CD-R
  - C CD-RAM
  - D CD-WR

- 22 Technical details about components on a computer are called specifications.
- A True
  - B False
- 23 Sending an e-mail is an example of data communications.
- A True
  - B False
- 24 Linda has pictures on her flash drive of her family. To copy the pictures to her computer, she plugs the flash drive into her \_\_\_\_\_ port.
- A USB
  - B serial
  - C parallel
  - D analog
- 25 A modem converts digital signals your computer outputs into analog signals (sound waves) that can traverse ordinary phone lines.
- A True
  - B False
- 26 The delete key removes characters from the left.
- A True
  - B False
- 27 refers to the physical components of a computer. Also called computer equipment
- A peripheral devices
  - B ROM
  - C software
  - D hardware
- 28 accomplish input and output functions.....example is the keyboard
- A hardware
  - B peripheral devices
  - C software
  - D RAM
- 29 the technical details about each component.....as in, how big is the monitor?
- A specification
  - B cpu
  - C ram
  - D hardware

- 30 \_\_\_\_ software helps the computer carry out its basic operating tasks.
- A virus protection
  - B hardware
  - C system
  - D application
- 31 Personal computer, handheld computer, mainframe computer, and supercomputer
- A types of computers
  - B types of peripherals
  - C types of printers
  - D types of monitors
- 32 storage measurement that is equal to approximately one billion characters.
- A megabyte
  - B gigabyte
  - C terabyte
  - D kilobyte
- 33 a detailed set of instructions that tell the computer exactly what to do
- A program
  - B hardware
  - C system
  - D specification
- 34 permanent memory
- A ram
  - B rom
  - C cpu
  - D lcd
- 35 central processing unit
- A CUP
  - B UPC
  - C CPI
  - D CPU
- 36 in the computer, all components are located on or connected to the \_\_\_\_\_
- A peripheral device
  - B motherboard
  - C LCD panel
  - D software

- 37 an electronic device that accepts input, processes the data and instructions, produces output from the processing that is useful and meaningful and can be stored for future reference
- A calculator
  - B computer
  - C cpu
  - D hard drive

## Answer Key : CPT101-Essential Concepts

Question:	Answer
1	B
2	B
3	A
4	B
5	A
6	D
7	D
8	A
9	A
10	B
11	A
12	C
13	A
14	A
15	C
16	C
17	C
18	A
19	C
20	A
21	B
22	A
23	A
24	A
25	A
26	B
27	D
28	B
29	A
30	C
31	A
32	B
33	A
34	B
35	D
36	B
37	B
